

MOBIGATESS.A.L.

Company Profile

Overview

MobiTaxis & MobiAds™ are innovative ideas created By **Mobigates SAL** to help Manage taxi businesses in different countries.

Taxi corporations, Independent Taxi drivers and consumers will benefit from a state of the art Fleet Management & the most advanced digital roof top digital advertising solution to organize their advertising needs.

Mobigates SAL introduced MobiTaxis, a mobile application that helps people find and order taxi services. It can be used by anyone with a smart phone to provide quick booking for a local taxi without a phone call, via a multilingual interface and geolocation mapping to the closest taxi available.

Mobigates SAL is unique to provide, MobiAds™ a digital Roof top led advertising display with GEO location targeted advertising; this catchy medium will be a revolution in the advertising conceptual business and affordable to any budget restriction.

VEER Boutique Hotel	Kaslik	00961 9 222623	Mr. Mark Anici

Price Rates

- Unlike regular taxi companies in Lebanon, MobiTaxis operate on taxi meters that count the distance travelled in kilometers and the waiting time in case of traffic. This advanced technology has allowed MobiTaxis to differentiate itself from other taxi companies gaining a competitive advantage in the market
- Since our fleet operates on taxi meters, we cannot specify the exact price of the trips for specified locations. However, our prices are calculated to compete against regular taxis in the market as follows:
 - Opening at LBP 5,000 for the first 2 KMs
 - From 2-KM to 6-KM: LBP 1,500 for each KM
 - Above 6-KM: LBP 750 for each KM
 - Minutes fare: LBP 30 per minute
 - Waiting Time: LBP 5,000 per hour
 - Airport pickup: parking LBP 6,000 starting (in case of delay, increase in parking meter) | Holding sign (optional) LBP 5,000
 - 7-seater available upon request
